

Graduate Certificate in Analytics for Managers Required and Elective Courses

The Analytics for Managers Graduate Certificate provides students with the knowledge and expertise to become data-savvy managers who can effectively communicate complex business problems and data-driven decisions to the management and general business audiences. This program is designed for business professionals who want to augment their managerial expertise with a quantitative skill set. Along with fundamental concepts in data-driven decision making, effective communication, and visualization of those decisions; the program allows students to choose between general business analytics or specialize in a specific analytics area such as Accounting, Marketing, or Human Resources. Upon completion, students will be conversant in utilizing appropriate tools and techniques for presenting what happened, analyzing how and why it happened, predicting future trends, and prescribing future strategies.

The Graduate Certificate in Analytics for Managers will be awarded upon successful completion of the 9-credit curriculum below.* The courses are not listed in sequential order. All course work should be completed within three years of starting the certificate program. Students should e-mail questions to ManagementHelp@psu.edu.
